GROUPS FOR
MORE TRAFFIC TO

YOUR BLOG

Pinterest Group Boards

This Exclusive List contains 300+ of Pinterest group boards with thousands of followers to increase your viewers, network, & collaborate with fellow bloggers, promote your blog posts to SKYROCKET your traffic and GROW your Business, hence your Profit and Returns!

I cannot stress how important group boards are to increase your traffic to your blog. Pinning strategically to the right group boards can give a massive boost to your site.

Group boards combined with automatic pin schedulers like [Tailwind](#) will DRAMATICALLY increase your traffic and your earnings!

I use [Tailwind](#) and a combination of manual pinning. Tailwind is **easy to use** and it automatically schedules to Pinterest as well as Instagram.

Tailwind is also the **Pinterest official pin scheduler**. You can sign up [for FREE here](#).

You can use both methods to make fantastic traffic gains straight to your blog or website. Unless you use Facebook ads or Google ads, Pinterest is the fastest way to gain relevant traffic to your blog. I get 80% of my traffic from Pinterest.

And don't forget Facebook groups- these have also become vital strategies and have schedules to promote your content every day.

Join up and become a part of an engaging community, get your work seen & grow your business fast!

Visit my blog socialbuzzhive.com for more exclusive cutting edge strategies on how to market and monetize your new blog or website FAST.

OVER 300 + PINTEREST BOARDS ORGANIZED BY NICHE

I am not kidding when I tell you that to gain the most amount of traffic you want to be a part of at **LEAST 50-100 boards**. This is indeed a lot of work but it will pay off in the long run!!

First thing you want to do is check the # of followers. You don't want to join a board that has a measly # of followers. Boards that have 25K followers are fantastic to get into because your posts will get tons of exposure but they are often closed to new members or tough to get into. Don't fret!

There are plenty of boards that would LOVE to have you as a member! Here's what you do:

- 1) Follow the instructions on the group board description
- 2) Follow the group owner profile, otherwise he/she won't be able to send you an invite.
- 3) Send an email to the board owner with your name, blog name, Pinterest profile link, email address and the board name that you want to join to the email address on the board description. See example below.
- 4) If there is no email address, then visit the blog and get the email address from the contact me page and send an email request to join the board. You can also send a PM in Pinterest. Sometimes, it might take a while to get a reply.

Example email to send to Group board owner:

Hi "Group Board Owner"

My name is "Your name" and I Blog at "xyz." about "your particular niche"

I would love to collaborate on your board because..... and have followed you on Pinterest

Could you please consider adding me to your “group name “board?”

My Pinterest account: xxxxxxxx

Email address:

I know you're super busy but I really appreciate you taking the time to add me!

Thank you,

Your name

Good Luck and if you need any help, don't hesitate to reach out!
